

Princeton High School

151 Moore Street, Princeton, New Jersey 08540 t 609.806.4280

Dear Parents/Guardians of Eleventh and Twelfth Graders:

Your son/daughter will be taking Health Education during this school year. As part of the Human Sexuality unit, we will be including the following outcomes:

- The students will understand the process of conception.
- The students will understand the stages of the birth process including labor/dilation, delivery and the placenta stage.
- The students will understand various choices of birthing including babies born in hospitals, homes, or birthing centers by physicians or midwives.
- The students will explore the controversial issues of pro-choices vs. abortion, including the legal, physical and emotional factors.

If you would like your son/daughter excluded from this aspect of our Human Sexuality unit based on your family's personal values or beliefs, please sign and return this form to John Miranda within five days of receipt. An alternate health assignment will be scheduled in such cases.

Sincerely,

Gary R. Snyder, Principal
John Miranda, Health/Physical Education Supervisor

Please exclude my child, _____, _____, from the Human Sexuality Unit.
